**The Special Meeting was called to address the following:**

1) **SCBA Testing and Repairs:** Chip Foster presented a quote to test the SCBA compressor's Air and to Hydrostatic Test 5 Air cylinders. Additional repairs will be charged at \$110/hour. Chip explained that personnel are in this area this week to do the testing. The Air should be tested annually. 5 tanks were missed last time the tanks were tested. He would like them to check out 3 SCBA packs that are not functioning so that we can get a quote to repair them. Chief, Joe Watts said 6 SCBA packs have been removed from Engine 11 as that structure truck is out of service. 2 of the packs have been put on other vehicles and 4 are spares.

Elaine motioned to allocate up to \$1,000 for the service and to look at the packs to see what is needed and get estimates. Sarah 2<sup>nd</sup>.

Discussion: Chip explained that certifying the compressor will be another \$1300. Air was due to be tested in January. The compressor maintenance is due every year or 100 hours. The compressor is working fine and that maintenance can be put into the budget later. Costs are being saved the technicians are already in the area. Sarah asked why Elaine wants to allocate \$1,000 when the quote is for a total of \$280. It was hoped that they may be able to repair one pack while they are here. Motion carried.
