

Med Flights Available

There are two med flight companies available in Deer Mountain Fire Protection District. Specific rules apply for ordering a helicopter for medical transport of a patient. The person to be airlifted must be a critical patient for life or limb. This is why only an EMS staff person or the Fire Chief can call for the helicopter.

Both available med flight companies offer annual memberships people can purchase to cover their flights. To determine which service is best for your medical situation and/or budget please visit the websites listed below.

AirMedCare

AirMedCare is a non-profit and will not charge a patient if they are unable to pay for the medical services.

Reach

Reach is a for-profit company and will pursue payment from the patient if insurance does not cover the services.
